## REDS' CHAIRMAN WOULD NOT AID U. S. IN A WAR

William Z. Foster Is  
Witness Before The  
Dies Committee

Washington, Sept. 29.—(AP)—A flat assertion by William Z. Foster, Communist Party chairman, that he would not support the United States in a war in aid of France and Great Britain highlighted today's hearing before the Dies committee.

The grim, unsmiling witness not only declared that he would withhold his own personal support, but would recommend that the party do likewise.

Foster's views were brought out by Chairman Dies (D-Tex.), who asked: "In event of war between the United States and Soviet Russia where would your allegiance lie?" "I'm for the defense of the United States and the maintenance of its national independence and the democratic system and the eventual establishment of socialism," Foster replied.

"As far as war against any country is concerned I wouldn't walk blindly into that war, if it was an imperialistic war."

Dies interrupted. "In the present war, would you support the United States government?" Dies asked in.

"If the United States entered on an imperialistic basis, I would not support it."

Dies then asked specifically whether Foster would support this country's government if the United States entered the present struggle on the English-French side.

"Under the present setup, I regard it as an imperialistic war and under that, I would not support the United States," the poker-faced witness answered.

Spectators, who had observed a strict silence when the witness made that declaration, stood up and cheered when Dies suggested at the hearing end that the Communist Party should be disbanded in the United States.

Dies asked Foster for a list of the party's district officers, and Joseph Brodsky, Foster's attorney, said he saw no reason for not complying. Foster and Brodsky indicated the list would be submitted soon.

## 49 P. W. A. Projects Warned to Speed Up

Chicago, Sept. 29.—(AP)—Nine projects in region two were among the 49 throughout the nation which today were warned by Col. E. W. Clark, acting Public Works Administrator, that the work must be speeded up or the grants would be stopped.

Of the nine projects reported behind schedule, two were in Illinois. They included:

A natural resources building, University of Illinois, Urbana, Ill., with a grant of \$245,454 on a \$545,454 project, which was 35 per cent completed on Sept. 15 but should have been 75 per cent completed.

A library and home management building, Teacher's College, Normal, Ill., with a \$261,818 grant on a \$501,818 project, which was 17 per cent done and should have been 56 per cent completed.

## HOG-CORN FEEDING

Washington, Sept. 29.—(AP)—The agriculture department reported today the hog-corn feeding ratio was more favorable to livestock producers in mid-September than a month earlier.

It said average United States prices for 100 pounds of live hogs were equivalent in value to 126 bushels of corn on September 15 compared with 122 bushels on August 15 and 168 bushels in mid-September last year.

## Opens Fight To Ban Credits For War Loan Defaulters

Senator Johnson Leads Forces to Make Neutrality Bill "Cash"  
And Carry Rather Than Extend Credit to Buyers

Washington, Sept. 29.—(AP)—Contending that the administration neutrality bill involved "credit and carry," not "cash and carry," opponents of the measure today made its financial section an issue second only to that of repealing the arms embargo.

The measure, finally approved by the Senate foreign relations committee during the day, would permit belligerents to buy arms or other materials here on 90 days non-renewable credit, subject to the approval of the president.

Already chafing at this provision of the legislation, the opposition considered it a challenge when Chairman Pittman (D-Ind.) of the Senate committee said today that to the extent of the 90-day credit the bill would amend the Johnson act. The law is a statute dear to the hearts of senators who have traditionally counseled American aloofness from the affairs of Europe. Most of them are allied with the opposition to the neutrality bill.

Johnson Act Background  
The Johnson act was passed in April 1934, soon after an investigation of the defaults of several South American countries on bond issues floated here, and within a year after most European nations had stopped making payments on their world war debts.

The law forbids any American bank, or individual to make a loan to any government which is in default on its obligations to the United States government. As applied to the present war situation, it would mean that Great Britain, France and Poland could not obtain credit here. Germany, not having any war loan here, would be free to do so, if she could find lenders.

So, in permitting 90 day credits to the three allies, the pending legislation, Pittman said, would amend the Johnson act. Senator Johnson (R-Calif.), the author of that law, and a prominent member of the opposition, was quick to reply. He agreed with Pittman.

Determined On Change  
It would not only amend, but "nullify," his act, he said and he was determined to see that the legislation was changed in that particular. He had not, he added, decided just what course he would follow.

"But I shall introduce an amendment and insist upon its adoption," he said.

While this issue was developing, the committee approved new language for the bill to make it clear that the 90-day credits could not be renewed, and that unless paid on time, the government responsible could obtain no further extension of credit until the default was made good. It also approved language to clarify the effect of the bill on American shipping to ports to the south of the United States, and on airplane lines to South America and to the Orient.

Unable to Raise Bond  
Counsel for the Bund boss termed the increase outrageous, and after more than four hours in a vain attempt to post the \$50,000, surrendered him to the Tombs while they obtained the habeas corpus writ from Supreme Court Justice Thomas S. Noonan.

Kuhn, wearing a week-old mustache, listened impassively as James Neary of his counsel argued before Judge Collins: "I don't believe Kuhn would leave the country, and I don't think he wants to leave."

"He won't run away or commit suicide," Neary asserted.

"No, Kuhn isn't the type of man to commit suicide," the judge drily ended the colloquy.

Costly Fakes,  
Jury Term For  
Gambling Raids

Chicago, Sept. 29.—(AP)—The September grand jury filed a supplementary report today in which it classed gambling arrests in Chicago and Cook county as a "colossal sham battle that costs the taxpayers millions yearly."

It said evidence presented before it indicated gambling was being "openly conducted on a very extensive scale and practically unimpeded." It said arrests were made by the hundreds but evidence showed such arrests were "nothing but a sham and an insult to the intelligence of the public."

Among suggestions the jury presented was one that "back passing" between the police and gamblers of the city, county and the courts be discontinued and that responsibility for enforcement of the laws be placed with the police department and the sheriff's office.

Other recommendations were that the bail bond procedure be reorganized, all gambling equipment be confiscated at the time of arrests, and proper and sincere arrest be made—"not a couple of stooges as the present system seems to follow."

Chief Justice John P. Ryals of the criminal court ordered the report filed and told the jury its recommendations would be followed.

## HALF-SISTER OF JACK LONDON DIES, AGED 71

San Rosa, Calif., Sept. 29.—(AP)—Mrs. Eliza London Shepard, 71, former national president of the Women's Auxiliary of the American Legion and a half-sister of the late Jack London, died today at London ranch in the "Valley of the Moon" near here.

London was born in San Francisco when his half-sister was 7 years old. Eliza virtually "adopted" him.

## MYSTERIOUS FIRE

Bucharest, Sept. 29.—(AP)—Rumanian secret police investigated a mysterious fire today on the estate of Constantine Argeloiu, Rumania's new premier.

## Father Freed, Son Guilty in Slaying

Harrisburg, Ill., Sept. 29.—(AP)—A circuit court jury today convicted Charles Gregory, 27, of Galatia, and acquitted his father, John L. Gregory, 58, at their trial on charges of murder in the slaying of Roy Shelton, 38.

The jury fixed Charles Gregory's punishment at life imprisonment. Shelton was shot to death as he walked with his wife near Galatia's business district last April 18.

The defense admitted that Charles Gregory fired the shots that killed Shelton, but attempted to show he was insane at the time and a victim of "hallucinations."

The jury, which deliberated an hour and 40 minutes, expressed the opinion in its verdict that the younger Gregory was not insane to the extent that he could not distinguish right from wrong.

Charles Gregory did not testify, but his father took the stand and denied firing any of the shots.

REP. THOMAS McMILLAN  
Charleston, S. C., Sept. 29.—(AP)—Rep. Thomas S. McMillan of the First South Carolina district, died at his home here today. He was 50 years old.

## INCREASE BOND OF FRITZ KUHN; SENT TO TOMBS

Bund Leader Unable  
To Raise \$50,000;  
Held For Theft

New York, Sept. 29.—(AP)—Fritz Kuhn, leader of the German-American Bund, went to the Tombs tonight in default of an unexpected increase in his bond to \$50,000. A hearing on a writ of habeas corpus to effect his release was obtained by his counsel for tomorrow morning.

Kuhn, indicted four months ago on a charge of stealing \$14,548 from his own pro-Nazi organization, has been free on \$5,000 cash bail. He is scheduled to go to trial next month.

Today, District Attorney Thomas E. Dewey's office obtained from General Sessions Judge Cornelius F. Collins an increase in the bond, compelling Kuhn had intended to leave this jurisdiction.

Unable to Raise Bond  
Counsel for the Bund boss termed the increase outrageous, and after more than four hours in a vain attempt to post the \$50,000, surrendered him to the Tombs while they obtained the habeas corpus writ from Supreme Court Justice Thomas S. Noonan.

Kuhn, wearing a week-old mustache, listened impassively as James Neary of his counsel argued before Judge Collins: "I don't believe Kuhn would leave the country, and I don't think he wants to leave."

"He won't run away or commit suicide," Neary asserted.

"No, Kuhn isn't the type of man to commit suicide," the judge drily ended the colloquy.

## Is Britain Using The Q-Boat?

New York, Sept. 29.—(AP)—Is Britain once again using the World War's most mysterious weapon, the Q-boat? Q-boats preyed on German submarines for months before their existence was even known. Even when the war was over, little was said about them. It is possible that they are prowling the seas again this minute.

The Q-boat was born about a year after the war started, when Germany shifted her submarine tactics from torpedoes to sinking British merchant ships by shell fire. The British spotted a curious opening for retaliation.

Quietly the British navy took the dirty, 3,000-ton freighter Lodovico and put her into drydock, where for several weeks, under heavy guard, there was much mysterious activity.

Presently she emerged, different notably for her name, which had been changed to Farnborough, and steamed blithely out right into the submarine-ridden regular shipping lanes.

But the first German U-boat that tackled the Farnborough got an awful surprise.

The sub launched a torpedo. She might have noticed—but didn't—the suspicious fact that instead of trying to dodge, the Farnborough deliberately changed her course to get in the way of the torpedo!

Boom! The usual consequences occurred. The ship started to settle. The crew took to the lifeboats.

But then, as the sub came to the surface a short distance away, the Farnborough's sides miraculously fell away, and from the hull of the ancient freighter popped big guns. They blazed away, and the submarine and its crew never saw the light again.

That was Germany's introduction to Q-boats. The Farnborough was typical of a subsequent fleet of uncounted disguised steamers, freighters, and even fishing trawlers which the British set on Germany's submarines.

They were tactically analogous to the famous German disguised sea raiders like Count Felix von Luckner's Seeadler, which preyed on British merchant ships.

# Germany Wants Peace On Own Terms; Britain Rejects

## POLISH STATUS QUO IS 'JOKER' OF CONDITIONS

"Hands Off Balkans"  
Also Stipulation Of  
Nazi Terms

Berlin, Sept. 29.—(AP)—Germany in effect told the world tonight she wanted peace, but only on the condition that the German-Russian pact on the fate of Poland be accepted as Foreign Minister Joachim Von Ribbentrop returned jubilantly from Moscow.

"Hands Off the Balkans" and "let us deal in our own way with the Baltic states" were secondary pronouncements which issued from government quarters.

Von Ribbentrop reported immediately to Reichsfuehrer Hitler upon his return from Moscow with a German-Russian declaration placing a peace argument before Britain and France; an accord partitioning Poland; and an exchange of letters projecting expanded exchange of Russian raw materials for German industrial products.

No one made any effort tonight to conceal the Nazi jubilation over the events in Moscow.

The future looked bright to Nazi chiefs. The open road to the east, it was said, nullified completely the British sea blockade and the trade agreement with Russia meets completely German needs for materials.

There was a more cheerful atmosphere in Berlin. Even the lights in the Wilhelmplatz were turned on dimly in a partial lifting of the blackout.

With her aims in eastern Europe achieved, Germany hopes for speedy re-establishment of peace, it was said in informed quarters.

Nor does Germany want to dictate humiliating terms to England and France, it was emphasized.

Germany, at a moment when inspired by the Polish military victory which now is crowned with a great diplomatic success, does not press on to exploit all the possibilities of her advantages," declared a Nazi spokesman.

"Germany does not insist that England and France capitulate."

This statement, made after beaming Von Ribbentrop reported to his equally enthusiastic Fuehrer, was described as a "peace gesture brought about by events themselves."

It was indicated no formal proposal on the part of Germany was called for nor necessary but that the plain facts of the situation "must impress on England and France the futility of further hostilities."

Among "new facts" which were said to strengthen the German hand was the plain intimation that under certain circumstances military cooperation between Russia and Germany was possible.

It was pointed out in Nazi quarters, for instance, that if any power on earth now sought to re-establish the republic of Poland, it would be opposing not only Germany, but also Russia.

A decision to reconsider the whole matter and to decide anew whether Europe should have war or peace should be possible for the western powers without loss of dignity or honor, the Nazi spokesman said.

"With such a vastly changed situation suddenly imposed on international affairs no country could be blamed for going to its people and saying let's think this over and turn back before we are irrevocably committed," he continued.

"But should the decision be to continue this purposeless war Germany will know that its very existence is at stake and will know how to defend itself."

## German-Russian Move Is "Blackmail" French Assert

Will Reject Any Peace Proposals Made on Basis of Partition  
of Poland; President Lebrun Visits Front Lines

Paris, Sept. 29.—(AP)—The French government gave official indications tonight it would reject any Soviet Russian and German proposals for peace made on the basis of the partition of Poland.

The government's position was made plain even before a peace offer had been formally made. In a radio broadcast Jean Girardoux, commissioner general of information, called the German-Russian move for peace "blackmail" and added that Britain and France were fighting against "the barbarism of one of the most modern and well organized nations of Europe."

Lebrun At Front  
At the same time foreign observers here said they considered the visit of French President Albert Lebrun to the front lines as a further indication that France was making no plans to accept any peace proposals which result from Russia and Germany splitting up Poland. France's eastern ally.

Girardoux said Hitler and Stalin were trying to force an "eastern peace" on Europe.

Such a peace he described as regimentation of other nations to conform to Hitler's and Stalin's ideas of government.

In a previous speech Premier Daladier declared flatly France is fighting to prevent her own "enslavement" by Germany.

Girardoux recalled that just a year ago today at Munich Hitler promised a new peace which "would help carry Europe ahead into a future of labor, health and honor."

While Lebrun visited the army and the army corps headquarters on the western front, Air Minister Guy La Chambre, accompanied by Joseph Vuillemin, chief of the air force, flew to the front for a 10-hour inspection of air bases.

Decorates Wounded  
In a front line ceremony Lebrun formally decorated an officer with the Cross of the Legion of Honor and two non-commissioned officers with the military medal. They all had been wounded in action last night.

Girardoux declared in his broadcast that Hitler counted on soon making peace in the west on the model of that in the east.

"Perhaps Hitler will propose it to us," Girardoux asserted, "on the condition that we deny not only our treaties and our tastes, our convictions, our religions and our liberties. He will give us what he calls peace—that is a short delay which permits Germany to digest its prey and to forge arms to snare its next prey."

## RUSSIANS BEGIN TALK WITH THE TURKISH ENVOYS

German And Estonian  
Pacts Will Boost  
Export Trade

Moscow, Sept. 29.—(AP)—Soviet Russia concluded agreements today with Germany and little Estonia by which she gains about half of Poland, an outlet for much of her raw materials and greater power in the Northern Baltic.

In three agreements with Germany she joined the Nazis to try to compel Britain and France to make peace on German terms, partitioned Poland with a warning to the rest of the world to keep hands off, and projected an economic program to furnish the Nazis with Russian raw materials.

A 10-year mutual assistance pact with Estonia made the little republic formerly Russian territory, virtually a protectorate of the Soviet union which was given the right to establish naval and air bases and army garrisons on Estonian soil. This pact was accompanied by a trade agreement.

Turkish Delegation  
These historic diplomatic moves disposed of Soviet official rumors to talks with Turkish delegation amid unofficial reports that Russia would demand partial control of the Dardanelles, vital gateway to the Black sea now controlled by Turkey.

Foreign quarters termed as "possibly premature" reports abroad that Russia had demanded return by Rumania of Bessarabia, which was Russian territory prior to the World war.

(Rumania strengthened her forces on the Bessarabian frontier as her interests in the Moscow diplomatic talks were intensified by the expected early departure of Bulgaria's Prime Minister for the Soviet capital. Bulgaria along with Russia and Hungary wants return of territory now Rumanian.)

Possible Soviet demands were forecast upon the little Baltic state of Lithuania, a neighbor of Russia now that Poland has disappeared. Lithuania is strategically located on the Baltic and is separated from Estonia by Latvia.

## Grain Elevator At Canton Collapses

Canton, Ill., Sept. 29.—(AP)—Two sides of the Farmers Cooperative Grain and Supply Company elevator collapsed today, dumping 12,000 bushels of corn and 2,000 bushels of oats on ground soaked by rain. Four men in and near the elevator escaped unhurt.

Earl Nagel, manager, said he believed the grain, owned by the Commodities Credit Corporation, would be a complete loss because the corn and oats were mixed together and were dampened by rain.

Nagel said he could give no reason for the collapse because the frame and girders in iron structure was fairly new and had been filled to capacity on previous occasions. He estimated the damage to the building was \$1,000.

## HITLERISM THE FOE TO DEFEAT, BRITISH STAND

Formal Statement By  
Chamberlain Will Be  
Made Monday

London, Sept. 29.—(AP)—Britain tonight presented a front of steady resistance to the Moscow peace gesture which Germany and Russia backed by an implied threat of joint action if the western allies do not accept their terms.

THE TIMES REPLIES  
London, Sept. 29.—(AP)—The Times replied to the German-Soviet Russian peace gesture tonight with the blunt declaration that "there can be no peace with Hitlerism."

The newspaper said the only difficulty in drawing up an answer "will be to express it within the normal vocabulary of diplomacy."

As to the Russians, the Times said relations with Stalin will be decided by events as and when they disclose his intentions, still far from clear.

The Soviet-German move, which included the partitioning of Poland, Britain's ally, was seen in authoritative quarters as an effort to "frighten" France and England into ending hostilities.

Newspaper placards flapping from backdrops of sandbags on the Strand and Piccadilly screamed "peace threat."

Pending a formal statement which Prime Minister Chamberlain will make to the House of Commons Monday, reaction to the Soviet-German agreement and peace gesture did not carry official stamp, but authoritative persons "in position to present the government's opinions made these points:

"Bogey Man Effort"  
First, it is a supreme "bogey man" effort to frighten Britain and France into peace, but it will not alter in any way Britain's determination to continue the war until "Hitlerism" is obliterated.

Second, Britain and France went to war with full knowledge of the German-Soviet nonaggression pact and with their eyes open to its possible effect.

Third, neither Chamberlain nor "our French allies" will go back on the pledge to "redeem Europe from the perpetual and recurring fear of German aggression and to enable the peoples of Europe to preserve their independence and their liberties."

"Germany is not likely to get any more raw materials from Russia than she would have been able to get under the original nonaggression pact, nor is it likely that Russia will give Germany any more assistance than she would have done under the original pact."

The press mirrored these views in a torrent of speculation while the war cabinet in collaboration with the French studied the Soviet-German agreement.

Lord Beaverbrook's Evening Standard said editorially:

"Hitler does not wish to engage himself in a singlehanded war with the west, yet it is to Stalin's interest that he should do so. Hitler wants a triumphant Germany; Stalin wants to deny all history if he can live at such result."

Disclosure of the decisions made in Moscow completely overshadowed the meagre military news available here. Britain's millions, however, were kept well aware of war on home front.

By midnight tonight every household in nation had to fill out blanks for national register prior to issue of identity and ration cards.

Textile labor leaders decided to demand higher wartime wages for 350,000 workers in the Lancashire cotton mills.

The toll of a northern explosives plant blast rose to 20.

Informed persons said Chamberlain on Monday would announce a complete reorganization of Britain's much criticized ministry of information and would re-establish a peacetime system of direct communication between government departments and the press. A smaller organization than the present ministry of 999 employees would handle censorship.

## AUNT ACQUITTED IN SLAYING OF INFANT

Chicago, Sept. 29.—(AP)—A jury of four women and eight men today acquitted Mrs. Anna Cahill, 40, of a charge of murdering a ten hour old infant the state alleged was born to her brother and Miss Anna Sybil, 24.

Ten days ago Mrs. Cahill was convicted and Miss Sybil pleaded guilty to charges of child abandonment in connection with another child born to the latter.

## Humor In The News

A small town correspondent for several Southern Illinois weekly news-  
papers has just been awarded the  
title of the best rural correspondent  
in the United States. Each week he  
writes the news of his neighborhood  
with a humorous slant. The judges  
of a contest sponsored by a magazine  
liked the way he put over his news,  
with a result that he was named as  
the Number One news writer from  
small communities.

We read a few of the correspond-  
ent's quips about his neighbors. They  
were good; the fellow is a born humor-  
ist. But each joke was cracked at the  
expense of an individual. One won-  
ders how the correspondent can keep  
joking his friends through the medium  
of the press, and still retain their  
friendship, especially if someone gets  
the idea that a joke can be carried too  
far.

The correspondent in an interview  
explained his luck at avoiding "kicks"  
in his column. He said he knows  
intimately the people whom he  
writes about; knows, in fact, just what  
they like and what they'll stand for.  
Again, this scribe exhibits the mark of  
genius. He has such a grasp on hu-  
man nature that he can figure out in  
advance the reaction of certain in-  
dividuals to his unique paragraphs.

The Southern Illinois humorist  
seems to be in a class by himself. The  
majority of newspaper correspondents  
from rural communities are unwilling  
to take such chances. While one  
citizen might not object to an in-  
nocent little wisecrack in the news-  
paper about himself, another might  
take offense. Editors, too, are skit-  
ish of a news letter which features  
personalities.

Poking fun at people is all right if  
done in the right place. We have al-  
ways thought that the news columns  
were not an appropriate medium for  
joking. People read news for infor-  
mation—they read special columns for  
humor, entertainment, or whatever  
they have to offer.

We do not advise rural correspon-  
dents to adopt the style of the South-  
ern Illinois gentleman who has won  
the prize. He dares to tickle the ris-  
ibilities of readers by quaint comments  
about his neighbors, and gets away  
with it. In this respect, he is a  
master. But all writers cannot be  
geniuses. Therefore, the rural and  
small town news that appears in the  
vast majority of newspapers will con-  
tinue to stick to facts, and columnists  
will continue to take care of the  
mirth-making department.

## Fish For The Lake

Local anglers, the majority of  
whom didn't have luck to brag about  
when they fished in Morgan or

Mauvalsterre lakes the past summer,  
should be interested in the most re-  
cent addition to the fishy population  
out there. About 5,000 game fish were  
placed in Morgan lake Thursday by  
employees of the state department of  
conservation. If the new fish live  
and prosper, the sport next summer  
should be more exciting than in the  
past.

Some how or other, fishing in Lake  
Mauvalsterre has never been what it  
should be, in the opinion of veteran  
anglers. The lake was well stocked  
soon after it was built, but many fish  
escaped on one occasion when high  
water washed out a portion of the  
dam. Better results have been ob-  
tained in Morgan lake, but even there  
fishing has not been the success it  
should in a well stocked body of  
water.

The several thousand fish placed  
in Morgan lake this week may prove  
the turning point in fishermen's luck.  
At any rate, sportsmen will be out  
next summer trying to interest a few  
of the 5,000 bass, crappie and bluegills  
in taking a chunk out of a plug or  
spinner.

## The Hope Of Profit

In a recent address, Dr. Harold G.  
Moulton, president of the Brookings  
Institution, said: "The indispensable  
prerequisite to the restoration of pros-  
perity and improvement in the stand-  
ard of living is reestablishment of con-  
fidence in the safety and productivity  
of business investments."

In another address, Henry R. Kin-  
sey, past president of the National As-  
sociation of Mutual Savings Banks,  
said: "Capital will not again become  
active without inducement and such  
inducement means a fair profit."

In these two statements is the real  
reason for the existence of the so-  
called "idle capital" problem. The  
man with a hundred dollars or the  
man with a million dollars isn't go-  
ing to risk it unless he feels confi-  
dence in the future of his investment,  
and feels that he has a fair chance  
to make a profit. It's very easy to de-  
nounce the profit motive, and talk  
about production for use instead of  
production for profit. But that does  
not hide the dominant fact that the  
hope of profit was the dominant force  
that led to the building of this coun-  
try, and that hope of profit must be  
the dominant factor that will cause  
still greater progress in the years that  
lie ahead.

Banks don't want to "hoard" money,  
nor do business individuals. But  
few individuals are going to risk their  
savings in any new venture if they  
believe they will be deprived of most  
of the profit through taxation, even  
if the venture succeeds. Maintenance  
of the profit motive is the best pos-  
sible way to stimulate investment, ex-  
pand industry and give productive  
jobs to the millions of unemployed.

## Because He Hates War

(Danville Commercial-News)  
When the Queen Mary docked at  
New York early this month, she dis-  
charged a passenger list that was only  
too glad to step foot on American soil  
once more.

Scarcely noticed among the throng  
of disembarking passengers was one  
man, rather a forlorn figure, who  
truly is a man without a country. He  
was Erich Maria Remarque, noted  
German author who was exiled from  
his native land because his philosophy  
of opposition to war was offensive to  
the Nazi regime.

Remarque, who was a private in the  
German army during the first World  
War, gained international recognition  
through his novel, "All Quiet on the  
Western Front." Graphically he de-  
picted the horror and futility of war  
and emphasized that all people in-  
stinctively desire to live in peace and  
brotherhood with one another. He  
followed his first success with "The  
Road Back," and "Three Comrades."

novels showing the hideous aftermath  
of the war in its effect on Germany.  
Stark realism and a powerful style  
gained for Remarque widespread lit-  
erary acclaim. Hollywood translated  
the stories to the screen with con-  
siderable success.

When the Nazis came into power,  
Remarque fell into disfavor because  
of his writings and public utterance.  
Copies of his works were burned at  
public bonfires to express the official  
disapproval. Remarque was compelled  
to leave his native land for his own  
safety. He travels now on an inter-  
national card of identification issued  
by the League of Nations.

## SMALL TALK

Good morning. And a very Merry  
Christmas to you. The general cold  
drizzle of things seems almost like  
late September. Of course it is late  
September, but here in Jacksonville,  
where the weather seems to get such  
a kick out of being unseasonable, when  
it is seasonable it's unseasonable. Do  
you follow? If you do you're a better  
man than we are. At the moment the  
mist is trying very hard to be a full-  
fledged drizzle, but isn't quite making  
it. It's really more of a mizzle, be-  
cause it isn't quite a mist and it isn't  
quite not a mist and it isn't quite a  
drizzle either. It is therefore a mizzle,  
which is a new rule we just made.  
That's how it is, and there you are.  
Incidentally, where are you by now?  
We missed out somewhere in the  
wilds of the last sentence and would  
like to get up with the rest of you. So  
—one, two, three, and....

Bang! Here we are in the next  
paragraph. Just as easy as that. Not  
that we've improved our situation, but  
at least it's a change. This is the kind  
of day when we could go on and on  
talking like this. Laziness, that's what  
it is. Put down the first thing that  
enters your mind. We're still waiting  
for the first thing to enter our mind.  
All this is beginning in the meantime,  
which is exactly the kind of time it is.  
Everybody in the office is heckling us  
and we are going to take time out to  
get down on the floor and kick and  
scream in a minute. That Mexican  
student had it right. He said that  
God made the night for sleep and the  
day for rest. Y'got something there,  
amigo...amigo...amigo...uh, chum.  
At the sound of the yawn it will be  
exactly. This is the station to which  
you are listening.

Bang! Have to do that at the be-  
ginning of each paragraph today. It  
wakes us up, sorta. At least it brings  
us to the point where we can begin  
to distinguish white from black, hot  
from cold, the Yanks from the A's, and  
so forth. It's all because we haven't  
recovered from the shock of one of  
the stories in the paper. Europe is in  
the throes of war, America is in the  
throes of Europe, death may come at  
any moment, and now "something  
serious has befallen the 1939 crop of  
soy beans." After all, enough is  
enough. A human being must be ex-  
pected to stand only so much. We  
were bearing up pretty well before.  
Ships were sinking, the poor fellows  
were dying, but we struggled on, ever  
hoping, ever praying. Then came the  
final blow—"something serious has be-  
fallen the 1939 crop of soy beans". Is  
there no mercy? Couldn't they have  
kept it quiet for a while, at least? Well,  
we just won't believe it. Sensational-  
ism, yellow journalism, that's what it  
is. Anything to increase circulation.

By this...beg your pardon—  
Bang!  
By this time, we have slipped and  
slithered through three—four, by  
golly—paragraphs, and it's getting  
late. This is being written at supper

## Pankhurst Speaks To J.H.S. Seniors

Discusses "Right or Wrong" in Home Room Address Friday Morning

The Reverend W. H. Pankhurst,  
pastor of the First Congregational  
church of this city, was the principal  
speaker in the senior home room as-  
sembly at the local high school Fri-  
day, speaking on the question "Right  
or Wrong."

Rev. Pankhurst said that there were  
three reasons which could be given in  
stating why we do a certain thing.  
"First," he said, "it is a question of  
habit. We become accustomed to do-  
ing certain things and oftentimes do  
not question whether those things are  
right or wrong.

"Second, there is the question of  
trying anything once. If we do  
something one time we build up a cer-  
tain energy in our minds which makes  
it that much easier to do it again.

Hammack and Joe Gutman attended  
a Kroger meeting at the Legion hall.  
Mr. and Mrs. L. F. Jordan of Jack-  
sonville and daughter, Mrs. Edward  
Kalsched of Hollywood, California,

rick fell and broke her hip Thursday  
afternoon. She was moved to the  
Rushville hospital Friday.

Miss Margaret Mullen is visiting  
this week with Mr. and Mrs. Charles  
Finch of near Jacksonville.

This is seen in the case of smoking or  
drinking.  
"And thirdly, there is the question  
of doing it because 'everybody else  
does.'" Rev. Pankhurst said that the  
majority of people in any one question  
is seldom right.

"Just because they are a majority,  
it does not mean that they are right."  
Previous to the talk of Rev. Pan-  
kurst, Bob Allan made several an-  
nouncements. William Miller then  
reminded the group that tryouts for  
new Forum members will be held in  
Miss Leonard's room Monday and  
Tuesday, October 2 and 3.

Mr. and Mrs. Wellington Huffaker  
of New Berlin were visitors in the local  
business district Thursday.

## GILLHAM FUNERAL HOME

JACKSONVILLE, ILL.

Dear friends:

There are many interesting  
things about the funeral di-  
rector's profession which the  
public doesn't often hear about.

Take our license require-  
ments, for example. Do you know  
that our license to practice can  
be revoked at any time if we fail  
in any one of numerous state re-  
quirements? The laws are strict,  
and they should be.

All this is for the pro-  
tection of the public, of course.

Respectfully,

Mrs. H. W. Galtuly returned home Wednesday from St. Luke's hospital in St. Louis where she recently underwent a serious major operation.

Mr. and Mrs. William Braley of Rushville were guests of Mr. and Mrs. Edward Silkwood Sunday.

**YOUR NAME IN THE DIRECTORY** if you order a telephone today.

Safety experts from the state Highway Division, who have been operating a safety lane here since Monday, report only one car in seven found to have no safety defects. About 700 cars had been tested up to the close of the lane Thursday. Even new machines passing thru the lane en route from factory to dealer, have been found to lack the necessary adjustments for safety.

Experts on the lane have been testing for wheel alignment, brake efficiency and headlight adjustment. Several car owners drove their machines thru the lane explaining that they knew their wheels were out of line, but they had never been able to find the trouble.

An operator of the lane explained Friday that wheels may be thrown out of line in the process of driving. Bumping against the curb will cause a tire to wear on one side. Many believe that cups in tires are caused from driving around corners, more often they are an evidence that wheels are out of line and are making irregular revolutions.

Many defects have been corrected during the operation of the lane here, and a recheck has brought an OK sticker for the machine thus made perfect. A report of statistical results of the work done during the week will be published later.

**Fatalities Reduced**  
Chicago, Sept. 29.—American motorists and pedestrians reduced traffic fatalities six per cent last month and established the lowest August death total since 1932. These statistics came today from the National Safety Council, which reported there were 2,690 persons

killed in traffic accidents last month. In addition to being six per cent less than that of August, 1938, the total turned an average nine per cent fatality increase between July and August into a three per cent decrease, the council said.

August was the fifth month of 1939 to record fewer deaths than the corresponding month of 1938. The fatality total for the first eight months of the year was 18,980, four per cent below the corresponding period last year.

The council said this represented a saving of 760 lives. Two phases of the decreases were especially encouraging, the council reported. The first, was that the saving in lives came in the face of an increased volume of travel. The second was that rural highway deaths a factor in the June and July increases, were decreasing.

### Alexander Woman's Club Holds Meeting

Flower Show Entries are Judged; Next Meeting Will Be Oct. 10

Alexander.—The Alexander Woman's club and many guests were delightfully entertained at the home of Mrs. Rozilla Tobin Wednesday afternoon, Sept. 23.

A short business meeting was conducted by the president, Mrs. Grace Reiser.

Miss Mary Postlewait of the Ideal Baking company gave a very interesting and instructive talk on the "Evolution of Bread" and illustrated it with the aid of a moving picture machine. At the conclusion of her talk, ten different samples of "their products were given to those persons whose names were drawn. She also gave salt and pepper shakers and recipe booklets to everyone present.

Mrs. Mary Proffitt and Mrs. Louise Ridder arranged the annual flower exhibit. Many beautiful vases of mixed and one flower bouquets were shown.

Winners in the flower show were: one flower vase, first, Mrs. Louise Ridder; second, Mrs. Thelma Dowell; mixed flower bouquet, first, Mrs. Mae Kinnett; second, Mrs. Sallie Stapleton.

Roll call was "My Favorite Flower." Among the many guests present was the district president, Mrs. Grace Davenport, who gave a short talk.

Delicious refreshments were served by the hostess during the social hour. The club adjourned to meet with Mrs. Helen Parmelee Tuesday, Oct. 10.

### Urges Motorists to Get Driving Permit

License Examiner, Here Friday, Says State Highway Force Enforcing Law

Automobile drivers who have not yet obtained their driver's licenses, would be wise to secure them immediately, State Highway Policeman Jewell Hubbard said here Friday morning in between giving applicants for license examinations.

The state highway patrol has been instructed to begin enforcing the driver's license law, he said, and persons operating automobiles illegally will be fined. He also urged that persons who have applied for licenses attend the examinations when they are notified that examinations will be held.

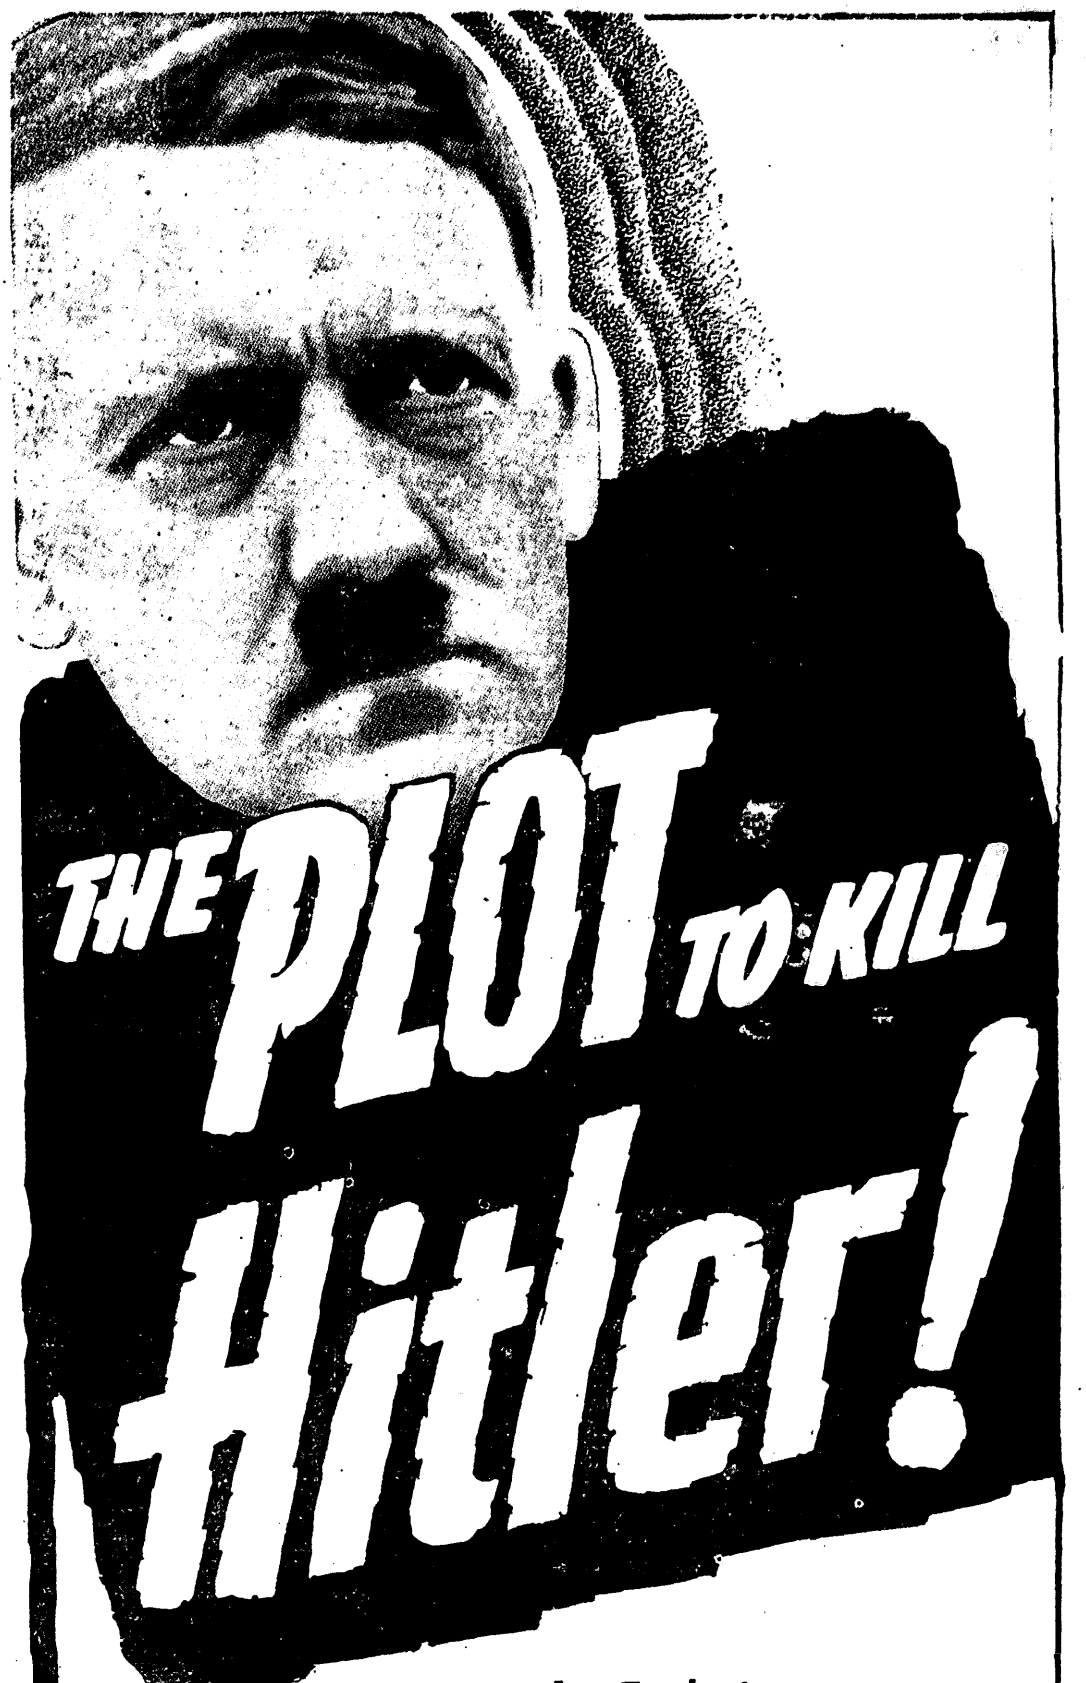

Mr. Hubbard was assisted by two civilians in giving tests here Friday morning. Frank Grill and Charles Oakland gave the road tests, while Mr. Hubbard conducted the office examination and completed the applications.

### REPORTS CAMERA STOLEN

Kenneth Olsen reported to the police department Friday morning that someone had removed a camera from his automobile while it was on a parking lot near the Fox theater.

# Blueboys To Open Grid Season Here Today With Carthage

## Tigers To Clash With Clinton Here Saturday In Conference Battle

The I.S.D. Tigers are hosts to the Clinton football-jugglers Saturday. The eleven will tangle in a fray scheduled to begin on the Tiger battlefield at 2 o'clock in the afternoon.

Coch Kenneth "Spike" Wilson is considering making a shift in his pack of Tigers for the game. He may send Jackson from his guard position on the line to the full-back territory.

The deaf boys deserve some real kudos on the back for this victory. In fact the Tigers have been showing a bang-up brand of ball all the way and may be eyeing both the Central Conference title and the Jacksonville city throne. The game here Saturday will be a conference match.

**Burris Back in Lineup**

Percy Burris, who seems always to have enough wind to stage a string of outstanding plays both on the gridiron and on the hardcourt, is perfectly okay, Wilson reports. Burris was in the hospital for a short time with an ankle infection. During this time he missed participating

in the Tiger season opener here with Jerseyville, and while the Tigers played flashy football, the absence of Burris from the lineup would probably have provided the needed impetus to break the final tie count.

Another backfield man, Frank Devito, makes up for his lack of height and weight with plenty of pep and drive, dodging evasively past opposing tacklers. Devito fills the right half position.

The Clinton squad, coached by Joe Axelson, has had a couple of tough breaks this season, losing twice by big scores. Wilson expects to find plenty of trouble, though, despite this record.

The probable starting lineup: I.S.D.—Conner, I.; Durham, II; Hage, I.; Brantner, C.; Cavello, R; Troeger, Jr.; Lumbuck, Jr.; Ralph Belzer, qb; Burns, Jr.; Devito, Jr.; Jackson, fb; Robinson, Jr.

Clinton—Ball, I.; Robinson, Jr.; North, Jr.; Holley, C.; Carrington, Jr.; Mahoney, Jr.; Vance, Jr.; Lovell, qb; Kent, Jr.; Shaw, Jr.; Mills, Jr. Officials: Clyde McQueen, Springfield; Arlie Wootenberger, Pittsfield; Shields, Greenfield. Game time: 2 p. m.

## Junior Thompson Is McKechnie's Choice To Help "Big Two"

Young Pitcher Counted On To Win Game; Reds Stage Big Celebration

Pittsburgh, Sept. 29.—(P)—The Cincinnati Reds have begun steaming up Junior Thompson, the 22-year-old "baby" of their mound staff, to beat the Yankees in his world series game.

That's all the National League champions figure they will need—one victory by their freshman star—to upset all the dope and give them the big end of the series money.

So they're working hard on the young Suede, who only a year ago was pitching for the Columbia club in the Class "B" Sally League. Forty times since the league title was clinched yesterday at Cincinnati Thompson has heard this.

"You're the guy to beat those damn Yankees, Junior. You've got exactly the stuff those guys don't like. You're a cinch to lick them once, and maybe twice. All you've got to do is pitch your regular game."

In the clubhouse after yesterday's game and most of the way here on the train last night they drummed it into the boy. Bucky Walters, Paul Derringer, Ival Goodman and Ernie Lombardi took turns dropping down casually beside Junior at the height of the celebration and slipping him the exciting news.

By the time we pulled out of Columbus some time this morning Junior was beginning to look like he believed it himself. And today, while his somewhat weary teammates went through the motions of playing the Pirates, Thompson was sitting around with a dangerous gleam in his eyes. Derringer, incidentally, provided the victory celebration, which from all accounts must have been a roaring success. One item was \$140 worth of champagne.

The idea behind the Thompson campaign is simple enough. The Reds, from Manager Bill McKechnie to the veteran Al Simmons, honestly think that Walters and Derringer can at least break even with the Yankees each of them pitching twice during the series. But they feel too that they must have another winner and Junior has been elected.

Derringer and Walters, as is perhaps natural with a couple of hurlers who have just won 52 games between them, aren't in the least awed at the prospect of facing the Yankees' murderous bats. Walters is unacquainted with the American League champions, except for a few brief exhibition game skirmishes, but Derringer, who has pitched against them in their heads in this year's All-Star game at Yankee Stadium.

The senior league champs met before today's game and decided how they would divvy up their share of the world series mazzana, but they were asked by Judge Landis to keep it a dark secret and let him announce the details.

## Tigers Drop Two Games to Indians

Cleveland Strengthens Hold On Third Place

Detroit, Sept. 29.—(P)—The Cleveland Indians strengthened their hold on third place in the American League race today by taking a doubleheader from the Detroit Tigers, coming from behind to win the opener 4 to 3, and gaining a 3-0 decision in the nightcap, called at the end of five innings because of darkness.

The result wiped out the Tigers' last chance of climbing out of fifth place. By innings (first game): R. H. E. Cleveland . . . 002 110 000-4 6 1 Detroit . . . 001 000 000-3 6 1 Harder, Feller and Pytlak; McKain, Benton and York.

By innings (second game): R. H. E. Cleveland . . . 111 00-3 0 0 Detroit . . . 000 000 00-0 4 1 (Called end fifth, darkness.) Miller and Hemsley; Newhouse and Tebbetts.

**AT NORTHWESTERN**  
Evansville, Ind., Sept. 29.—(P)—While most of their Big Ten rivals are opening the season tomorrow, Northwestern's varsity eleven will engage the freshmen in a 30-minute game.

Following this engagement will be another half-hour scrimmage between varsity players.

## Rout Six Man Team Upsets Stronghurst 33-0 In Initial Game

Rout High's six man football crew got off to a rollicking start on its autumn schedule yesterday afternoon by trouncing Stronghurst Community High school 33 to 0 at Stronghurst, a town in northwestern Illinois. The Rockets produced touchdowns in each quarter, their biggest period being the second when they scored a pair.

Captain McGinnis accounted for a total of 71 yards in enemy territory. The defense work of Henry and Winters threatened Rout's goal several times in the second half. The Stronghurst line did not appear to measure up to the work of the backfield, which turned loose some good passing and open field running.

Warsaw, Illinois, will send its six man team to Jacksonville for a battle with Rout next Friday night at the football park, beginning at 8 p. m.

Yesterday's lineup: Pos Stronghurst: J. Longman, C. . . . . Dixon Langdon, RE . . . . . Kemp Henry, QB . . . . . Gilliland Devlin, RH . . . . . Harvey McGinnis, FB . . . . . ## Seven of Big Ten Grid Teams Start Playing Saturday

Purdue-Notre Dame Clash is Holding Most Interest; Notes on Others

Chicago, Sept. 29.—(P)—S-men, B-men, even G-men will dot the gridirons tomorrow as seven Big Ten teams open their 1939 football seasons. Tops, even to "letter" men, will be Purdue's clash with Notre Dame at South Bend. There the Brown-Brock-Beylene backfield combination will try to spell down and run down the Sagau-Sitko-Sheridan-Stevenson quartet of the Irish.

Although it was the inaugural game for both Hoosier schools, a national championship may be at stake. Each lost but a single game last year and were on the accredited list of national contenders—Notre Dame with almost a dozen and a half letter winners back and Purdue with two dozen.

Another intra-state "natural" brings together Wisconsin and Marquette at Madison where the Badgers will spring their G-men—Tony Gradinski, Fred Gage and Gordon Gile—at their foremost non-conference rival.

Indiana and Nebraska, who battled to a scoreless tie last year, will try all over again at Bloomington. After Saturday's game, Indiana will not have another home contest until it meets Purdue November 25 in the season's finale.

Other Big Ten teams starting tomorrow, all in home tilts, are Illinois, with Bradley, Minnesota, with Arizona, Iowa, with South Dakota, and Chicago with Beloit.

A review of offensive and defensive maneuvers yesterday wound up Purdue's heavy workouts for the Irish contest. Lou Brock, who missed early practice because of an ankle injury, worked out at right half, but Coach Mal Elward was undecided on whether he would start him Saturday.

Notre Dame, meanwhile, went thru a workout against Purdue's "pet" players, but ended the day with Layden still dissatisfied with the team's progress.

Indiana, Iowa and Wisconsin had stiff drills. Northwestern and Michigan worked on pass defense and Illinois on kicking and passing. Ohio State took a light practice preparatory to an intra-squad scrimmage today.

At Minnesota, Coach Bernie Bierman had to dig up two new ends as veterans Bill Johnson and Bill Atkins turned up ineligible for Saturday's game. He concentrated on Ed Steinbauer, erstwhile fullback, and Fred Hull, who had been doing guard and tackle duty.

**COTS FOR YANKEES**  
Hotel Rooms Exhausted In Cincinnati

Cincinnati, Sept. 29.—(P)—New York's Yankees probably rate gold-plated beds in a presidential suite or two, but when they get to Cincinnati for the third and fourth games of the world series, Oct. 7 and 8, they'll sleep on cots and like it.

This development today, made known by the hotel where the team is to be quartered, became typical of an acute situation in which city finds itself—one which because of concurrent conventions, made necessary the opening of an official "housing bureau."

Among them, the American Federation of Labor meets for two weeks beginning Oct. 2, bringing with it an expected 2,000 or more delegates and visitors, many of whom held hotel reservations long before any idea of a world series was entertained.

But even as the Chamber of Commerce requested the operation of residents in listing available rooms, the Cincinnati baseball club, exultant over its first National league pennant in 20 years, announced that 800 additional reserved seats would be provided in Crosley Field.

Plans to swing a "bleacher" section from the left field wall across adjoining York street, as was done during the last world series here in 1919, were sidetracked at a meeting of directors today.

Counting right and left field pavilion seats added recently, approximately 31,000 persons can be seated, with standees bringing the expected total to 35,000 or more.

**TURKEYS TO BE CHEAP, PLENTIFUL THIS YEAR**

San Francisco, Sept. 29.—(P)—Turkeys will be cheap and plentiful for the United States this year—even if the country celebrates both President Roosevelt's designated Thanksgiving Day and the customary one.

Government and trade reports indicated today a supply of close to 32,000,000 turkeys in the new crop. That is six million more birds than ever before.

With the record carryover of storage supplies, there will be close to four pounds of turkey for every person in the country.

Prices in the San Francisco wholesale market are 24 to 25 cents—three to six cents a pound lower than a year ago.

**GIFT OF PEACE**

Versozke, Hungary, (On the Hungarian-Russian border), Sept. 29.—(P)—Tall Mongolian cavaliers, members of a Caucasian Tartar regiment, took over this snowbound frontier post today for Soviet Russia. They came to "bring peace to the Poles," a sergeant said.

## Visitors Bring Squad Of Veterans; I. C. Has 2 Triple-Threat Men

The Illinois College Blueboys will tear the cover off their '39 football schedule Saturday afternoon when they line up against Carthage on the college athletic field here. Game time is 2 o'clock.

Coach Alf Lamb reports that the visitors will bring a well-seasoned squad with them, including eight or nine lettermen. The Blueboys have to match this bunch of game busters available for backfield positions, who may break loose at any time in the battle. Among these are the triple-threat men, Harvey Scott and Frank Mangeri.

Both of these lads can pass, run and kick with equal facility and will in themselves give Carthage plenty to tear their hair about. The Blueboys have not had any scheduled games thus far this season but have been working out steadily under game conditions. Chief scrimmage opponent for the I. C. gridgers has been the frosh squad coached by Athletic Director Arthur Beasley and Gail McWard.

**Long-time Opponents**  
Fans can hark back to 1900 and still find Carthage and Illinois College meeting each other once a year on the field of battle. Though the Blueboys have had some tough fights during these years, particularly the last few, they have won a larger number of the games.

It was in 1937 that Illinois College came from behind to nip Carthage and thereby win the conference title. Joe Clark, now captain of the Carthage eleven, ran 80 yards for a touchdown against the Blueboys early in the game, but I. C. came back in the closing minutes to gain a touchdown and extra point for the 7 to 6 victory.

Last year Carthage defeated the Blueboys 9 to 6 on the opponent's stamping grounds.

Clark's brother, Wayne, will also be among the Carthage squad Saturday. Wayne has developed into a strong runner and passer. Another outstanding member of the Carthage eleven is Flick, the co-captain playing in guard position. Carthage, one of the schools not having the freshman rule, also has a number of promising yearlings with them, among them two strong backfield men. The Carthage mentor is Herb "Hub" Wagner.

Coach Lamb has not decided just what Blueboys will make up the starting line-up but announced that the team will be chosen from the following men.

**Gives Probable Starters**  
The wing positions are, however, well-established by Clarence Lorenz and Art Yates. Tackles will be Capt. Keith Peabody and either Henry Kostanski or Jack Kasper. Bob Mader has about cinched one of the guard jobs with the other side to be filled by Bob Hopper, Tony Ursic, or Joe Stalega. Jim Thompson will occupy the center of the Blueboy line.

In the backfield nothing is very certain in the way of first stringers. Lamb says. Either Herb Reay or Frank Cooper will play quarterback, and Frank Mangeri or Gus Petraitis will be tailback. The right half post will be occupied by either Hershel Heaton or Dick Shrivs, and the left half by Harvey Scott or Bob Detienne.

Other members of the Blueboy squad who will be on hand for service in the fray are Dick Husted, Mel Thompson, both linemen; Harry Lipe and Bob McWard and Frank Kohler, ends; Ray Pesavento, tackle, and Gene Eoff, a promising grinder whom Lamb is grooming for the center position.

Illinois college has been able to survive the practice sessions with nothing more than a daily delivery of bruises. Fortunately, no serious injuries have

kept any of the squad members off the practice field.

Carthage has a slight advantage over the Blueboys in that they have played one game this season, the result in a 6 to 6 tie with Burlington college.

**Best Blockers, Runners Yet**  
Coach Lamb says that the present roster of Blueboy gridgers is the best bunch of blockers and ball carriers in his experience. Game busters liable to cut loose at any moment are Shrivs, Scott, Mangeri, Reay, Detienne, and Petraitis.

Lorenz has shown some great play on the defensive and is an exceptional ally good blocker. Petraitis has been consistently unrelenting nifty passer with the veteran Art Yates on the receiving end of many of them. Yates seems able to pull in any throws within firing distance.

Another lineman who looks good is the Blueboy captain, Peabody, who has displayed a lot of drive and maneuvering skill on the offensive particularly Mader is a beautiful defensive man and an unavoidable tackler. Hopper, Ursic, and Stalega are all fighting out for the guard spot on the I. C. fine string and each seems equally determined to get it. The result will be, one way or another, a guard on the starting line-up with plenty of reason from the substitution bench to keep him there fighting to hold it.

**Working for First String**  
Kasper, Kostanski, and Lipe are very strong on both the defensive and offensive while Mel Thompson and Dick Husted look as if they might break into the line at any time. Pesavento, Lamb reports, is showing considerable progress.

The Illinois college band, led by its director, H. Elbert Edelbrock, will be on hand during the conflict to fill martial air requirements. The group will assemble before the game at the old Academy hall grounds where they lead about 700 Boy Scouts to the college field. The Scouts are guests at the game and will present a demonstration between halves.

The Blueboys will run onto the field clad in complete new outfit, blue and white from head to toe. Lamb has also purchased complete protective equipment for this season.

Officials for the conflict will be Guy Temple, J. R. Clark, and William Bean, all of Tri-Cities.

**TENNESSEE VOLTS**  
Raleigh, N. C., Sept. 29.—(P)—The Tennessee volunteers, aided by Captain Sam Bartholomew's 81-yard return of the opening kickoff, scoring twice today against N. C. State College in the first period then found the going tough before they won 13 to 0.

A crowd of 12,000 sweating fans watched the vaunted Vols, rated last year as one of the nation's top teams, launch their season in fine style and give to their coach, Bob Neyland, his 101st football victory at Tennessee.

The average annual temperature at the poles is about zero, and that at the equator about 80 degrees Fahrenheit.

## Woman's Club at Ashland Observes 50th Anniversary

### History of Club Reviewed, Former Presidents on Program

Ashland—Members and guests of the Ashland Woman's Club on Tuesday, September 26, were met at the door by Mrs. Carl Lynd and each were presented with a favor, a small laced fan with the dates of 1889-1939 and two gold stars, tied with gold cellophane, in honor of the opening of the 50th season. Eight past presidents were honored guests. The members and guests repeated the Collect and Mrs. Alice Wallbaum, Mrs. Charles Beggs, Mrs. Annette Lohman, Mrs. Walter Adkins, Mrs. Ella Savage, Miss Bertha Crum, Mrs. Anna Con-

over, and Mrs. Josephine Beggs, read the minutes. A response was read by Mrs. Grace Jenkins from Mrs. Mary Sinclair, a former member. The regional institute will be held in Beardstown October 17. Mrs. Helen Brownback had charge of the program. Several vocal selections of "songs of 50 years ago" were sung by Mrs. Howard Fletcher accompanied by Mrs. Lucy Flickinger, both of Petersburg. Mrs. Catherine Lee of Iowa is the oldest member of the club but she was unable to be present. Mrs. Charles Douglass, second oldest member, joined the second year of the club. She gave sketches of the past 42 years. Mrs. Anna Williams, 3rd oldest member joining in 1902, gave a talk. Mrs. Helen Brownback read roll call members. Mrs. Helen Beggs, Edinburg, president from 1909 to 1910, gave a very interesting talk. Mrs. Walter Adkins, former president, gave a talk. Other past presidents were Mrs. Alice Wallbaum, 1916-1917, Mrs. Ella Savage, 1920-21, Miss Bertha Crum, 1921-23, Mrs. Helen R. Dean, 1926-27, Mrs. Louise Clemons, Mrs. Anna Conover, 1928-29, 1938-37, Miss Clarice Reaick, 1932-35, who gave some very interesting by-laws made in 1889 and some of the minutes. Mrs. Helen Danenberger, and Mrs. Annette Lohman, 1937-38. Letters were read from Mrs. Martha Wallbaum, Mrs. Ada Glenn, and Mrs. Fred Hexter. Mrs. Lulu McCraugh wrote a poem about the club and for the rhyming of the club members names and she also gave a poem for her daughter. Mrs. Helen Brownback closed the meeting with the poem "Friends."

home of Miss Frankie McDaniel in honor of her 70th birthday. Mrs. Kate Holmes has returned from a visit at the home of Mr. and Mrs. Albert Holmes of Springfield. Mr. and Mrs. Louis Martin and sons drove to Ottumwa, Iowa, Sunday in celebration of her father's birthday. Charles Schaddel and family spent Sunday in Peoria, visiting with his brother. Miss Miriam Grove, Miss Melba Reid, Kermit Murray, and Gordon Wixom of Havana, were among the passengers on the boat excursion at Beardstown Monday night. For the second straight time, the Ashland grade school "Yankee Clippers" baseball team defeated the Freshmen of the local high school. The game was played Wednesday at 4 p. m. on the high school diamond, closing with a score of 12 to 7. Batteries for the victors were McGraw, and Bob Mullen, pitcher, and Schaddel, catcher. James E. Frye of the grade school faculty coached the team. The P.T.A. will hold a meeting Monday, Oct. 2 at 7:30 in Room 8 at the grade school building. There will be group singing followed by the business meeting. Miss Anna Bonan-singa, instructor of voice at MacMurray college, will give a vocal solo. The speaker of the evening will be Miss Empe Henry, associate professor of Household Science at MacMurray college, on the subject of "Clothing the Child." A social hour will follow. Two judging teams will represent Ashland in the judging contest to be held at the College of Agriculture in Champaign Saturday. The boys will enter in the mild judging and the meat identification teams. The boys who will make up the teams will be named within a few days by George Walker, ACHS agriculture instructor, who will also accompany the boys to Champaign.

### YOUTH INJURED AT JERSEYVILLE SCHOOL

Jerseyville.—Theodore Shortal, son of Chief of Police and Mrs. Ray Shortal, sustained a spinal injury Wednesday evening following the dismissal of school at the Jerseyville grade grade. According to reports, the child fell over some of the debris still remaining in the school yard from the construction of the new school building and struck his spine on a 2x4 or other bit of scantling. He was confined to his home Thursday as a result of the injury.

Another son of Chief Shortal, Junior, is just recuperating from a fractured arm sustained while alighting from an automobile.

## Something Serious Has Befallen 1939 Crop of Soy Beans

Government Experts Seek Cause of "Green Centers"; May Be Recent Heat

Something has happened to the soy bean crop which may prove serious in its consequences. Beans sent to market have been found to have a greenish cast or to be yellow on the outside but with green centers. Government experts have been sent out of Washington to the various terminals and also to Decatur, where much of the bean supply of the central belt is consumed. The experts were called in by the bean marketing trade when the crop was found to show the mysterious defects. As yet no market discounts are available, and it is not known what beans are really worth. It is known that beans with the greenish cast or those with yellow coating and green centers are counted as damaged, as are also unripe beans. Experiments are being made with

the oil from the new crop of beans. Eighty per cent of the oil extracted from soy beans is used in various food products. It is feared the oil from the defective beans may be poisonous and unfit for human consumption. Experts are at a loss to know the cause of the difficulty, the only reason thus far put forward being the recent intense heat. It is thought the 100-degree temperature may have cooked the beans in the fields, causing the strange green centers.

## Sportsman of Old School Tells What Hunting Should Be

Samuel C. Berry Likes the Chase, But Wants It Fair and Square

Samuel C. Berry, residing near Bluffs, was shaking hands with old friends here Thursday. Mr. Berry is a veteran fox and coon hunter and still has his hound dogs. He talked enthusiastically of a trip to the big fox and coon hunt to be held at Florence in the near future. He expects to camp out and enjoy the sport. Mr. Berry is a sportsman of the old school. Many years ago he raised foxes and coons for the chase, keeping them in large cages on his farm. He believes in giving the game a sporting chance and expressed his opinion of hunters who shoot the quarry, rather than let the dogs run it down.

"And they hunt with field glasses, too," he said. "With the glasses they can trace the course of the running fox, and one of the hunters will go to the trail on the opposite side and wait for the quarry to come by, then shoot it. I'm not for that sort of thing."

"They do the same in hunting birds, spotting a covey with the glasses first, then the hunters will sneak up and pot-shot the quail without giving them a chance to rise or permitting the dogs to flush them. We never hunted that way."

"In fact I recall how we used to wait till the dogs had pointed a covey, then take pictures of the dogs in position and send the photos to sporting magazines. We were never in a hurry to make a killing."

### FUNERAL NOTICE

## POLISH STATUS QUO IS 'JOKER' OF CONDITIONS

(Continued from Page One)

The suggestion that Germany would smash hard if the war continues was backed up by the observation that there will be only one front. In the east, now, our back is not only covered, but strengthened.

At the foreign and propaganda ministries it was regarded unlikely that Germany would take any initiative to inform England and France officially of the accord with Russia or point out its implications.

"Both England and France have embassies in Moscow which probably are informed and moreover the press tells the story to the people of the world who, after all, count most," one official observed.

Asked whether the question of colonies could create difficulty in a settlement with England the spokesman said there was no change in this issue which England has informed Germany she proposed to adjust by negotiation.

Also it was said, as far as Germany is concerned there is no change in attitude toward the Baltic states.

It was hinted there might be more diplomatic surprises "from which England will derive no happiness" when the results of Turkish-Russian negotiations become known.

In the opinion of informed quarters Premier Mussolini appeared to have been chosen for the role of "peace-maker" because Italy ranked first among the "friendly powers" with which Germany and Russia proposed to cooperate in their peace maneuver.

German troops had been expected to enter surrendered Warsaw today, but then entry was deferred until probable Oct. 2 as the removal of the Polish soldiers began only tonight.

## Friendly Enemies of Embargo Repeal

Washington's neutrality battle smashes party lines. Fighting shoulder-to-shoulder against repeal of the arms embargo are these three members of three different political groups. Left to right: Senator Bennett Champ Clark, Missouri Democrat; Senator Arthur Vandenberg, Michigan Republican; Senator Henrik Shipstead, Minnesota Farmer-Laborite.

## E. H. Gray, Former Power Co. Manager Here, Dies Friday

Services Will Be Held at Princeton, Ill., Monday Afternoon

Elmer H. Gray, for ten years manager of the Jacksonville branch of the Illinois Power and Light company, died Friday morning at his home in Davenport, Ia., according to word received here by Hubert Littler from the son, Clark Gray.

Mr. Gray retired from the Illinois Power and Light company in 1926. When he resigned management of the Jacksonville branch he had served the company for many years in other capacities. Mr. Gray succeeded W. B. Meier when he took charge of the local plant in 1916.

Following his retirement from the power company Mr. Gray went into business manufacturing cosmetics with his son Clark. Recently Mr. Gray and his son began the manufacture of a metal paint designed to prevent rust.

While here, Mr. Gray lived at 1128 West College avenue. Funeral services will be held in Princeton, Ill., at 2:30 p. m. Monday at Norberg's chapel.

In addition to his son, Mr. Gray is survived by his wife, Mrs. Gray, moved to Davenport about six years ago.

## CHAPIN TAKES LEAD IN CONFERENCE BALL GAME; BEAT PALMYRA

Chapin, Sept. 28.—The softball game between Palmyra and Chapin was played Thursday night with Chapin taking an undisputed lead in the Little "C" Conference by defeating Palmyra. The Chapin boys won 12 to 8 under the lights at Palmyra. Chapin took the lead in the first inning, getting three runs on three hits and an error. Palmyra came back with four runs in their half of the inning. In the third inning Chapin made eight runs on ten hits to win the game. Palmyra got two more in the third on a home run by Hyson and two more in the fifth. Chapin added another run in the fourth. Ward of Chapin allowed 14 hits and Thaxton of Palmyra allowed 17 hits.

## CASS SUPERVISORS DISCUSS PENSION CLAIMS AT MEETING

Virginia, Sept. 29.—The Cass county board of supervisors met in an adjourned session Tuesday, and most of their attention was taken up with discussion of the threatened suit of nine Cass county blind pensioners for money they claim due on back pensions.

The payments were missed for several months during a severe year period because of the fact the pension fund was depleted.

The supervisors passed a resolution to offer the nine claimants \$200 each in cash as a compromise settlement and it is thought this will be accepted, according to Judge J. Paul Crandall of Rushville and Attorney Carl Robinson of Jacksonville, who represent the pensioners.

The blind pensioners are claiming about \$270 each due in the past five years, but payment of the complete amount at this time would cause a shortage in the fund which would hamper present payments, but if they accept the compromise offer of \$200 each, the present payments can be continued.

The pensioners are W. W. Luter, Mrs. Wm. Gilpin, Nancy Mahan, Josephine Barker, Mary Harden, Marion Tenpole, Eliza Lanier, Lottie Lee and J. Jesse Berthois.

## Experts Confer On Grading Soybeans

Chicago, Sept. 29.—(AP)—J. E. Barr of Washington, D. C. head of the Department of Agriculture soy bean inspection bureau, conferred today with H. H. Whitesides, the bureau representative in Illinois, on the grading of green or immature beans in the state's bumper soybean crop.

"We want just a few more facts to supplement what we already have in connection with green beans," Barr said. "The situation is not new to us but the condition is much more prevalent this season and may have caught some of our inspectors unaware."

Immediately upon his arrival, Barr conferred with Whitesides and said definite instructions on grading would be issued by the department as soon as he obtained a few additional facts.

Soybean producers faced lower prices for their crop in many places because of the prevalence of green beans.

Discounts ranged from three to nine cents a bushel in Illinois and in some neighboring states were reported as high as 16 cents.

## 94TH NAVAL ACADEMY YEAR IS INAUGURATED

Annapolis, Md., Sept. 29.—(AP)—Europe's newest war had no effect on the lives of 2,300 midshipmen who entered the naval academy today for the opening of the 94th academic year at the great school of the sea.

The 1939 midshipmen were the first to return to the academy with a major war raging since the midshipment of 1914—graying commanders now—came back from summer leave to find Europe aflame.

The rumbling of guns overseas had no echo here today. Classes resumed normally under the time-clock precision of navy discipline.

## GERMAN Y. M. C. A.

Geneva, Sept. 29.—(AP)—The German Y. M. C. A., which originally had 3,000 branches, has withdrawn from the international organization, Turkey Strong, American head of the Y. M. C. A. world committee, said today on his return from Berlin.

## FUNERAL DIRECTORS TO APPEAL TAX DECISION

Chicago, Sept. 29.—(AP)—Circuit Judge Stanley H. Klarkowski today dissolved a temporary injunction restraining the state director of finance from collecting the sales tax from 250 undertakers who joined in the suit.

The court held that the tax was collected on tangible property used in funerals and that funeral directing was not a profession.

Attorneys for the plaintiffs indicated they would appeal. A protest fund of several hundred dollars has accumulated with the state treasurer during the life of the injunction.

## Son of Former Ward School Teacher in City Given Honors

James W. Anderson Awarded Soldier's Medal for Saving Two Pilots

Mounting the cockpit of a flaming airplane and pulling out two test pilots, after kicking a hole through the fuselage to save himself, brought a soldier's award to James W. Anderson, son of Mrs. James W. Anderson, of Kansas City, and formerly grade school teacher here, according to word received by Mrs. Lillian I. Danskinn.

Young Anderson, who was graduated from the army air school at San Antonio, Texas, in 1936, and who has been serving at the army air field at Riverside, California, made his heroic rescue last April at Dayton, Ohio.

He was riding in the plane during a test, and was in it when it crashed at an airport there. He was caught in the rear seat of the plane, designed for army use, and made his escape by kicking a hole through the bottom of the plane. As soon as he escaped from his place he climbed onto the cockpit of the plane and pulled out the two test pilots, who had been knocked unconscious when the plane crashed in flames.

Following this exploit, young Anderson was promoted to a lieutenant in the regular army, receiving his commission recently. He previously had been serving as a reserve in the air corps.

Lieut. Anderson is the son of the former Miss Stella Duckett, who taught in the fourth ward school here for a number of years, and who has many friends in Jacksonville.

## Rail Line Seeks To Buy New Electrics

Chicago, Sept. 29.—(AP)—Col. A. A. Sprague, receiver for the Chicago, North Shore and Milwaukee railroad, today announced plans for the purchase of two unique 100 mile an hour, electric trains for the Chicago-Milwaukee run.

A petition asking permission to buy the units from the St. Louis car company, low bidder for \$399,000 will be filed next Tuesday before U. S. District Judge H. Wilkerson.

Col. Sprague said North Shore line engineers have designed a four-unit articulated train 136 feet long, resembling a single car.

Built of high tensile strength alloys each train will weigh about 84 tons, instead of the present 156 tons, and have a safe operating speed of at least 100 miles an hour.

Three sections of each train will serve as coaches, and the fourth as a tavern car, equipped with illuminated bar, armchairs, and sofas. All are air conditioned and electrically heated.

Novel features of the new trains include doors in the middle of the cars instead of the end, and complete insulation against noise and vibration.

The Franklin W. C. T. U. met Wednesday with Mrs. Sadie Darley and enjoyed a pot luck luncheon at 1:00 o'clock.

The program in the afternoon honored the centenary of the birth of Frances E. Willard and the members and guests were interested to hear Miss Zoe Tyrrell tell of the many times she had seen Miss Willard.

Plans were made to attend the state convention that is to be held in Bloomington Oct. 24-27.

Guests present were Mrs. Henry Mansfield, Mrs. Hubert Twyford, Mrs. Aline Carpenter, Mrs. Noel Carpenter, Miss Zoe Tyrrell, Mrs. T. C. Alcorn.

In the election of officers for the coming year the following were chosen: President, Mrs. Sadie Darley; vice presidents, Mrs. Luvenia Scott, Mrs. Essie Henderson and Mrs. Ida Miller; treasurer, Mrs. Emma Calhoun; secretary, Miss Edith Thursby.

## BUILDING A HOME

Des Moines, Ia., Sept. 29.—(AP)—Jesse C. Kinton's prospects for completing his home were brighter today following his release from jail.

He was arrested for stealing a large billboard to provide lumber for the house. An unnamed benefactor provided his \$500 appearance bond and several others have offered not only to pay for the \$150 sign but to donate additional sums to help complete the home. Kinton is a WPA worker.

GEORGE B. STOREY  
Pekin, Ill., Sept. 29.—(AP)—George B. Storey of Washington, Ill., chairman of the Republican county central committee of Tazewell county, disclosed today his marriage to Mrs. Ethel Morton, a Washington widow, in Vandalia, Ill., yesterday. Storey is treasurer of the state county chairmen's association.

## Clinics Report on Trachoma Cases in Southern Illinois

Eyes of Children at I.S.B. Carefully Watched Through Weekly School Clinic

Springfield, Ill., Sept. 29.—(AP)—Doctors in charge of five state-maintained trachoma clinics in southern Illinois reported today through the state welfare department they were bringing under control in that area the eye disease that frequently causes blindness.

Since the clinics were established five years ago, more than 181,000 examinations and treatments for trachoma have been given. Actual treatments average 700 cases weekly, the report said.

Spaced approximately 25 miles apart, the clinics are located at Shawneetown, Jonesboro, Eldorado, Herrin and Vienna, all in the extreme southern sector of the state. They were established there after a survey by the Illinois Society for the prevention of blindness showed the disease most prevalent in that area.

The recent Illinois legislature appropriated \$85,578 for trachoma control, mostly through the clinics.

Hogs Lose Despite  
Curtailed Receipts

Chicago, Sept. 29.—(P)—Despite curtailed hog receipts in the open market today, prices fell 10 to 25 cents, top falling to \$7.40. All killing classes of cattle had a draggy, cleanup trade at weak to 25-cent lower levels. Fat lambs and yearlings were unevenly weak to 25 cents down. Hog receipts totaled 5,000 in the open market, or 2,000 less than advance estimates, while big packers received 4,000 direct. The market was mostly 10 to 15 cents off on weights from 180 pounds up and 25 cents off on lighter weights. Bulk of 200 to 270 pound hogs sold from \$7.15 to \$7.40, the latter top and \$2 under the peak price reached September 6 in the war-boom market. Best light hogs in the wholesale dressed market declined 1 cent, and at 171 cents a pound were at the lowest level since last June.

Best steers sold at \$10.25, light yearling heifers also bringing this price. Cows were slow and steady to weak, most cutters selling from \$4.75 to \$5.25. Bulls had no reliable outlet, but vealers were active from \$11.50 down.

Best native spring lambs sold at \$10, most bringing from \$9.75 to \$10. Sheep were steady.

## New York Stock Market

New York, Sept. 29.—(P)—A few props slipped from under the stock market today and leaders were shaded fractions to around two points at the finish.

Heavy selling started the session and losses ran as high as three before the pace slowed and mild recovery set in. At that, few shares were able to get above yesterday's closing levels.

Some brokers were inclined to blame the new Russo-German peace efforts and pacts for the decline, which was well distributed throughout the list except in the motors.

They pointed out that a peace enforced by threats of two important transatlantic powers in Europe and Asia might upset world economy at this time through its effect on commodity prices, and that should a military accord follow the heralded "foundation for peace in eastern Europe" it might mean a vastly longer and more destructive war than had been expected.

Foreign markets assessed the picture in much the same manner as New York and sold off in quiet sessions. Stocks that might benefit from the war were liquidated at Amsterdam.

Transfers approximated 1,000,000 shares.

Domestic news continued favorable. A leading steel company announced it was restoring a six-day week and full pay to its salaried employees because of the "extra work involved in the present increased volume of business."

Commodities were mixed in the usual "peace scare" fashion. Cotton, in late dealings, advanced 15 to 45 cents a bale.

GRAINS STILL OFF  
DUE PEACE TALK

Chicago, Sept. 29.—(P)—Declines of more than two cents a bushel took place in the wheat pit again today as the market continued to absorb selling inspired by European peace talk but about half of this loss was wiped out before the close.

Wheat prices were pushed down to within a cent of government loan levels here and to about eight cents below warboon peaks. Rains bringing some relief to many drought districts in the west and southwest also encouraged selling.

Corn declined about two cents but then rallied with wheat. More than 400,000 bushels were bought from farmers, and the hedging of this cash grain added selling pressure to the futures market.

Receipts were: wheat 40 cars, corn 268, oats 35.

Wheat closed 1-1/2 cents lower than yesterday, December 82 1/2-c, May 82 1/2-c, corn 1-1/2 down, December 49 1/2-c, May 52 1/2-c; oats 1-1/2 lower.

A rally took place in the wheat pit after mid-session.

## Farm and Rural Interest

Country Children of Pre-School Age Can Have Nursery  
School if Parents Will Organize to Carry Out Plan as  
Outlined by State University

Who ever heard of a country child going to nursery school? Maybe not, but the child living in the country may have advantages similar to those gained in such a school, say family living authorities, College of Agriculture, University of Illinois.

Not that the three and four year olds will start toddling up the road by themselves. The point is that activities which have proved beneficial and fun for city children will also work in the country.

Forseeing the "why bother" attitude that some parent may have, it is suggested that he consider the self-reliance, development of skills, the learning-to-live-with others which are among the personality traits any child may acquire if he plays daily with children of his own age. Parents likewise may profit by watching the children together and thinking how they may meet the many problems which arise.

In rural communities where the activity is being tried, two or three mothers and fathers plan the working arrangement of such a group. Every day for one week, the little folk gather at one farm home with that homemaker assuming the responsibility of guiding the children's play period by a nap.

and planning their noon meal and nap. Another homemaker cooperates by taking the children to the play group while a third takes them home. The next week the schedule may be repeated at another home.

An arrangement of this type gives each homemaker a certain amount of free time to carry out other plans. At the same time, the parent supervising the play group has an opportunity to study the children.

"Use what is on hand," is the answer to the problem of how much equipment is needed. A sandbox, some sturdy packing boxes of two or three sizes, a home-made teeter-totter are fine. Several planks which can be used in various ways are popular. For example a wide one can be laid across two small packing boxes at a height of about six inches from the ground. Changing from one home to another will give the children a greater variety of toys to enjoy, it was pointed out.

As for the meals, some of the same type of food served at the regular noon-day dinner may be served to the children, the specialists said. A sample meal might contain meat balls, mashed potatoes, buttered carrots, cabbage sandwich, apple sauce and milk. The noon-day meal usually is preceded by a short rest and followed by a nap.

## FLAPPER FANNY

By Sylvia

"Oh, you an' your temper! Some of these days when you're mad an' fire me, I'm gonna quit."

Let us tell you about it

No fuel rivals coal for steady even heat. No fuel gives more heat-units per dollar than coal. With the new Iron Fireman Coal Flow, no fuel gives more all around convenience than coal. The new Coal Flow handles coal from bin to fire as easily as other installations handle oil or gas. Have your dealer deliver the coal into the bin, and the Iron Fireman Coal Flow does the rest. But convenience isn't all you get. You make substantial savings over firing coal by hand, because the Iron Fireman way of firing is much more efficient. Saves 15% to 30% in fuel cost over oil or gas, and gives you more steady heat. See a demonstration of this marvelous self-firing Iron Fireman. Prepare for a "summer home" next winter. Prices are lowest in Iron Fireman history, and terms can be arranged.

MANY SIZES AND MODELS FOR OLD OR NEW FURNACES  
Iron Fireman Coal Flow and standard hopper models (illustrated at the right) are available for warm air furnaces, hot water, steam or vapor vacuum boilers, and for industrial heating or power boilers.

SIDE GLANCES By George Clark

THIS CURIOUS WORLD By William Ferguson

THE WORLD'S MOST VALUABLE FINGERPRINTS BELONG TO W. N. JENNINGS, OF PHILADELPHIA! THEY ARE PRINTS OF HIS OWN FINGERS MADE 50 YEARS AGO, AND ARE IDENTICAL.

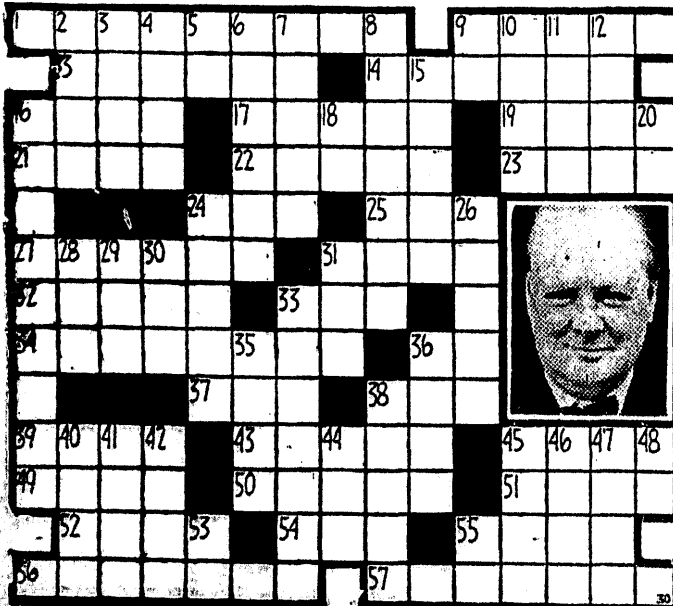

ANSWER: Misogynist. A misogynist is a hater of marriage, an a misogynist is a hater of argument, or discussion.

The Jane Withers of 1939 has overcome her tendency to tubiness, has reduced to 100 pounds and is neatly streamlined, as you can see.

STAMP NEWS

THE first of the seven five-stamp sets of "Famous Americans" will likely be issued early in December, it now appears. The set will include artists, authors, composers, educators, inventors, poets, scientists, 32 men and three women in all. President Roosevelt made the final selections after scores of nominations were made. The set, hailed as the "heroes of peace" issue, should be one of the most important in U. S. philatelic history.

A stamp issued for an event which never took place is now attracting special philatelic interest. This is the German value issued in commemoration of the 1939 Nazi party congress at Nuremberg. It shows Hitler about to speak at the meeting. Hitler never spoke and the congress was not held because of the outbreak of war.

Almost anything may come out of the European war for the stamp collector as boundaries are changed, countries wiped off the map. German and Russian occupation stamps may be expected as a result of the fall of Poland. Likewise, Russia may issue new stamps for its acquired provinces in Poland.

War stamps may also be expected anytime from the belligerents, commemorating the start of hostilities, elevation of commanders, battles, launching of ships, national charity and fund drives of one form or another.

At the same time, new interest is focused on the stamps of countries "conquered." Poland for current example. Who knows where the ax may fall next?

The entire 1922-23 issue of coiled stamps has been withdrawn from sale at the Washington Philatelic agency.

## SERIAL STORY

## WORKING WIVES

BY LOUISE HOLMES

COPYRIGHT, 1939, NEA SERVICE, INC.

Yesterday, Carma makes a scene, slaps Pete's face. When Randy and Dolly go to take her home, she eludes them. Marian knows Carma is in no condition to drive. They hurry to her apartment, and it dark. Her car is not in the garage.

## CHAPTER XXII

THEY waited in Randy's car. After 15 minutes, Pete hailed a cruising cab and he and Julie departed for home.

When another half hour had passed, Randy said, "Let's go. Perhaps we can locate her by telephone." Did he mean call the police station and hospitals? The fluttering wings were beating in the region of Marian's stomach again.

In Dolly's apartment, Randy made numerous calls. Not one word could be learned of Carma's whereabouts. There was nothing more they could do.

Randy said, "I threw a swell party, didn't I?"

They laughed shakily. Dan and Marian said good night. As the door swung to, she saw Randy take Dolly fiercely in his arms. Pete and Julie had been drawn together by the wretched incident, Randy's swift embrace seemed to say that love was strong, it mustn't be made to wait.

Marian wanted to throw herself into Dan's arms. She was unstrung, she had seen naked emotions that night, a human being stripped of the trappings of civilization. She wanted to be comforted, she needed to be soothed.

Obviously Dan had not been drawn toward Marian by the course of events. In characteristic fashion, he paced the living room floor, hands in his pockets, brooding eyes on the floor. His remoteness drove Marian to the point of frenzy.

Breaking every resolution, giving up to screaming nerves, she snapped, "That's right—pace and scowl. I'd think you would. You men are responsible for all the pain we women suffer. Look what Pete did to Carma. Look what you've done to me."

Raising his head he stared at her from under drawn brows. She had not known that his eyes could be so cold. This time she was not going to get away with it. This was the end. Involuntarily she braced herself.

"Why did you tell Carma that Pete would be at the club tonight?" The softness of his voice held a razor blade in its folds.

## Osage Boy Scout District Leaders Discuss Programs

### Several New Troops Active; Leadership Training Is To Be Stressed

The first fall meeting of the district committee of the Osage Boy Scout district was held in Jacksonville last evening. Dr. Geo. Drennan, vice chairman of the district, presided in the absence of W. O. Randall, chairman.

Reports were heard from chairmen of committees. Lee Caldwell, of the camping and activities committee reported on the many activities engaged in by the scouts during the summer months. Among those mentioned in the report were representation of scouts at the Council base camp on Lake Springfield and the number that served on the Junior Camp Staff, participation in the Morgan County Fair and the Rees plowing match, also the western horseback trip in the Rockies. In addition, Sea Scouts of the district attended the regional regatta at Moline, and two senior scouts were members of the Senior Scout camp held in connection with the State fair at Springfield.

The organization committee reported through the field executive that a new troop at Franklin had been organized and that installation will be held early in November. This committee also reported a total scout membership for the district at 306, including 34 cubs and 20 sea scouts.

Considerable attention was given the matter of leadership training for the fall program. It was explained by Scout Executive P. L. Hesser that training of leaders is the most important matter needing attention at this time. He pointed out that many new troops were organized in the past year and that a great number were under the leadership of men who had not had the opportunity for training. The committee went on record as favoring the University type of training course and Jacksonville was designated as a training center for all leaders in the western part of the Council.

The committee also went on record as favoring a proposed policy which would require every commissioned leader of scouting to have some advanced preparation for his leadership position. This would apply to leaders in cubbing, scouting, sea scouting and senior scouting.

The meeting was attended by the scoutmasters and the entire troop committee of troop 119 of Woodson. This troop reported that they have all but two eligible boys in Woodson in the troop and are hopeful that it will be 100 per cent soon. It was stated by the Scout Executive that this troop had the opportunity of being the first to reach such an outstanding record in the entire Abraham Lincoln Council.

The Woodson scouts met with James Walker and Executive Lindgren after the meeting to plan Woodson's participation in the district finance program.

The meeting was attended by Dr. Geo. Drennan, James Walker, Hayden Walker, Raymond Plato, William Winkler, H. L. Caldwell, Dr. F. B. Oxtoby, Rev. Morgan Williams, Dr. T. K. Jones and from Woodson, William Fanning, Hubert Craig, N. H. Crain, Scoutmaster, S. N. Atkinson; Scout Executive P. L. Hesser and Field Executive Oscar Lindgren.

## Many Corn Crib Erection in County

### Big Crop and Government Ever-Normal Plan Is Speeding Activity

The large corn crop and the government ever-normal granary program are responsible for the erection of a large number of cribs on Morgan county farms and in community centers this fall. Lumber dealers have reported an upturn in sales of material for this purpose.

Husking has already begun on some farms and no doubt will be done earlier than usual on account of dry conditions which prevailed for more than a month. The corn crop was regarded as safe from frost some time ago.

A large double crib 34 by 60 feet is being put on the Passavant hospital farm south of Alexander. It has a concrete bottom and will provide storage capacity of six to eight thousand bushels.

Another crib 10 by 40 feet is being erected on the farm occupied by Allen Smith, south of Orleans. In Alexander, Wayne Kinnitt, grain dealer, is supervising the erection of several galvanized round cribs along the Wabash right-of-way. Similar cribs are being put up by the Orleans Farmers Grain Company.

The corn crib building business is active at other points and in other communities. At Bluffs the Farmers Elevator is erecting a series of cribs.

## Pastor's Aid Has Luncheon Meeting

### Officers of Grace Church Society Entertained By Mrs. Webster

On Wednesday the newly elected officers of the Grace Methodist Pastors' Aid, with Dr. and Mrs. Morgan Williams, were entertained at a luncheon luncheon conference at the home of Mrs. G. O. Webster, 218 West College Avenue. All officers were present, as follows:

President—Mrs. G. O. Webster  
1st Vice Pres.—Mrs. Marion Self  
2nd Vice Pres.—Mrs. C. A. Obermeyer  
3rd Vice Pres.—Mrs. E. H. Schwab  
Secretary—Mrs. Basil Sorrells  
Treasurer—Miss Clara Crawford  
Purchasing Agent—Mrs. O. E. Kolmer

Directly following the luncheon, the pastor made a statement as to the organization of the women's work in the United Methodist church. The exact form such organization will take in local churches will be determined until the General Conference of 1940.

The discussion of plans and program which followed included such items as:

Organization of sections or circles.  
Budget for the year.  
Objectives which should be set up for the year, as touching the financial, social and spiritual needs of the work.

Plans for the first monthly meeting on October 11th.  
A possible change of the name of the organization so as to be in line with the suggested changes made by the Uniting Conference in Kansas City, last May.

A second planning conference to be called within the next two weeks, in which section chairmen would participate.

At the close of the discussion, everyone gave a vote of appreciation to Mrs. G. O. Webster for the lovely luncheon, as well as for her fine leadership throughout the planning conference.

## I. C. Yearbook Is Awarded Honors

### Gets High Rating From Judges; Published On Small Budget

The "Rig," the Illinois college yearbook, was declared to be a miracle of collegiate budgeting by judges of college yearbooks from all over the nation as they awarded the I.C. award of last year the high rating of excellent. The book was published on one of the smallest budgets for any college in the country.

Graded in the class including educational colleges with an enrollment under 500, the "Rig" was awarded the high rating, with only two other books scoring more points. The Illinois college book was graded especially high on its financial set-up and its society section.

Art Hallberg of Jacksonville and Art Santorjian of Connecticut were co-editors of the book, and Ed Johnston of Jacksonville served as business manager. All three have had much experience in yearbook work in their respective high schools and on previous "Rigs". M. M. Barlow, business manager of the college, served as advisor to the staff.

Exceptional also in last year's book was the fact that all of the art work and most of the photography was done by student members of the staff, a thing seldom found in college yearbooks.

The "Rig" carried informal pictures of the faculty and both candid and formal pictures of students. One of the most interesting pages of the book, and one bringing forth comment, was the introduction page to the meritorious society section. This page showed the various society pins upon a background of black, producing an unusual effect.

Editors of this year's book are Mabel Tippitt of E. St. Louis and Floyd Bertolio of Bend, Ken Baker of Winchester will manage the business.

## Home-Coming to Be Marked at Church
